LC-POWER

LC5400 V2.2

Silent Series

The SILENT SERIES by LC-POWER offers a good price-performance ratio: thanks to its 120mm fan, the LC5400 V2.2 lets you experience a stress-free and silent work in your office as well as at home. Despite the low sound level, the power supply offers a good cooling capacity for your system thanks to its ventilation grille on its back.

The power supply features all current connectors of the office and mid-range sector. Besides current mainboards you can connect several SATA and PATA hard disk drives respectively optical drives. A floppy disk drive can be added as well as a graphic card with PCI-Express.

Including PFC (power factor correction for an efficient use of the spent energy) and all relevant safety circuitry.
